CONTAINER MATTERS

Contracting Out

Contracting out and Sub-Contracting is commonplace in Container Logistics, but what are the risks?

Essential Forum for Shippers, Forwarders and Container Transporters

- Are you clear about the way you engage contractors? - sub-contracted drivers, container packers / unpackers, warehouse staff, on-site service personnel, or others?
- What are the tests applied by the ATO, Fair Work Australia, & WorkSafe about who is a contractor and who is not?
- Are you aware of Victoria's Owner Driver legislation and the role of the Small Business Commission?
- Will the new Chain of Responsibility (CoR) laws throw up more challenges in engaging and managing (sub)contractors?

Yarraville Club

Wednesday 30 August 9.00am - 5.00pm

(followed by Conference Cocktails)

Book

Hosted by

Supported by

This CONTAINER MATTERS Conference will delve into your rights and obligations when contracting out and will focus on:

- tax and superannuation
- industrial relations and fair work, and
- workplace health and safety

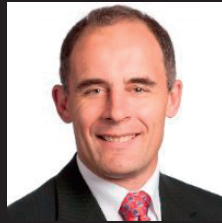

Experts will update you on current laws, positive and negative case studies, and mitigating risk strategies
